### DETAILED ACTION

1. This Office Action is the answer to the amendment received on 4/19/2007.
2. Claims 1-16 are pending in this application.

#### *Response*

3. Prior Office Action is withdraw - the examiner closely analyses what the applicant claims, and see a below restriction. He regrets of any inconvenience may cause to the applicant because of this.

#### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

4. This application contains claims directed to more than one group of the generic invention. These groups are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept:

A. Group I: Claims 1-13 are directed to a physical device/system; US classification as 701/208.

B. Group II: Claims 14-16 are directed to steps of a displaying map; US classification as 340/990,995.1.

It is considered that this Application does not comply with the requirements of unity of invention with a difference between a specific physical device/system, and steps of displaying a map; in addition, US classifications define these above 2 groups into different inventions.

5. Applicant is required under 35 U.S.C. 121 to elect a single disclosed group for prosecution if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the group that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicants must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CUONG H. NGUYEN whose telephone number is 571-272-6759 (email address: cuong.nguyen@uspto.gov). The examiner can normally be reached on 9:30 am - 5:30 pm.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

Please provide support, with page and line numbers, for any amended or new claim in an effort to help advance prosecution; otherwise any new claim language that is introduced in an amended or new claim may be considered as new matter, especially if the Application is a Jumbo Application.
